

Smarter Security for Warehouses, Storage Facilities & Industrial Sites

Cloud CCTV and Access Control designed for growing storage and warehouse businesses.

Who We Are

Reliance Cloud Connect is a cloud-based security provider and part of Reliance High-Tech, bringing over 40 years of security expertise to growing businesses across the UK.

We specialise in helping warehouse operators, self-storage providers and industrial businesses adopt modern cloud-based CCTV and access control solutions that are simple to deploy, easy to manage and built to scale.

Our approach is consultative and proactive. We take the time to understand each customer's operational challenges and growth plans, providing tailored recommendations that improve security while supporting day-to-day business objectives. By combining leading cloud technologies with trusted security expertise, we help organisations create safer, smarter and more resilient environments.

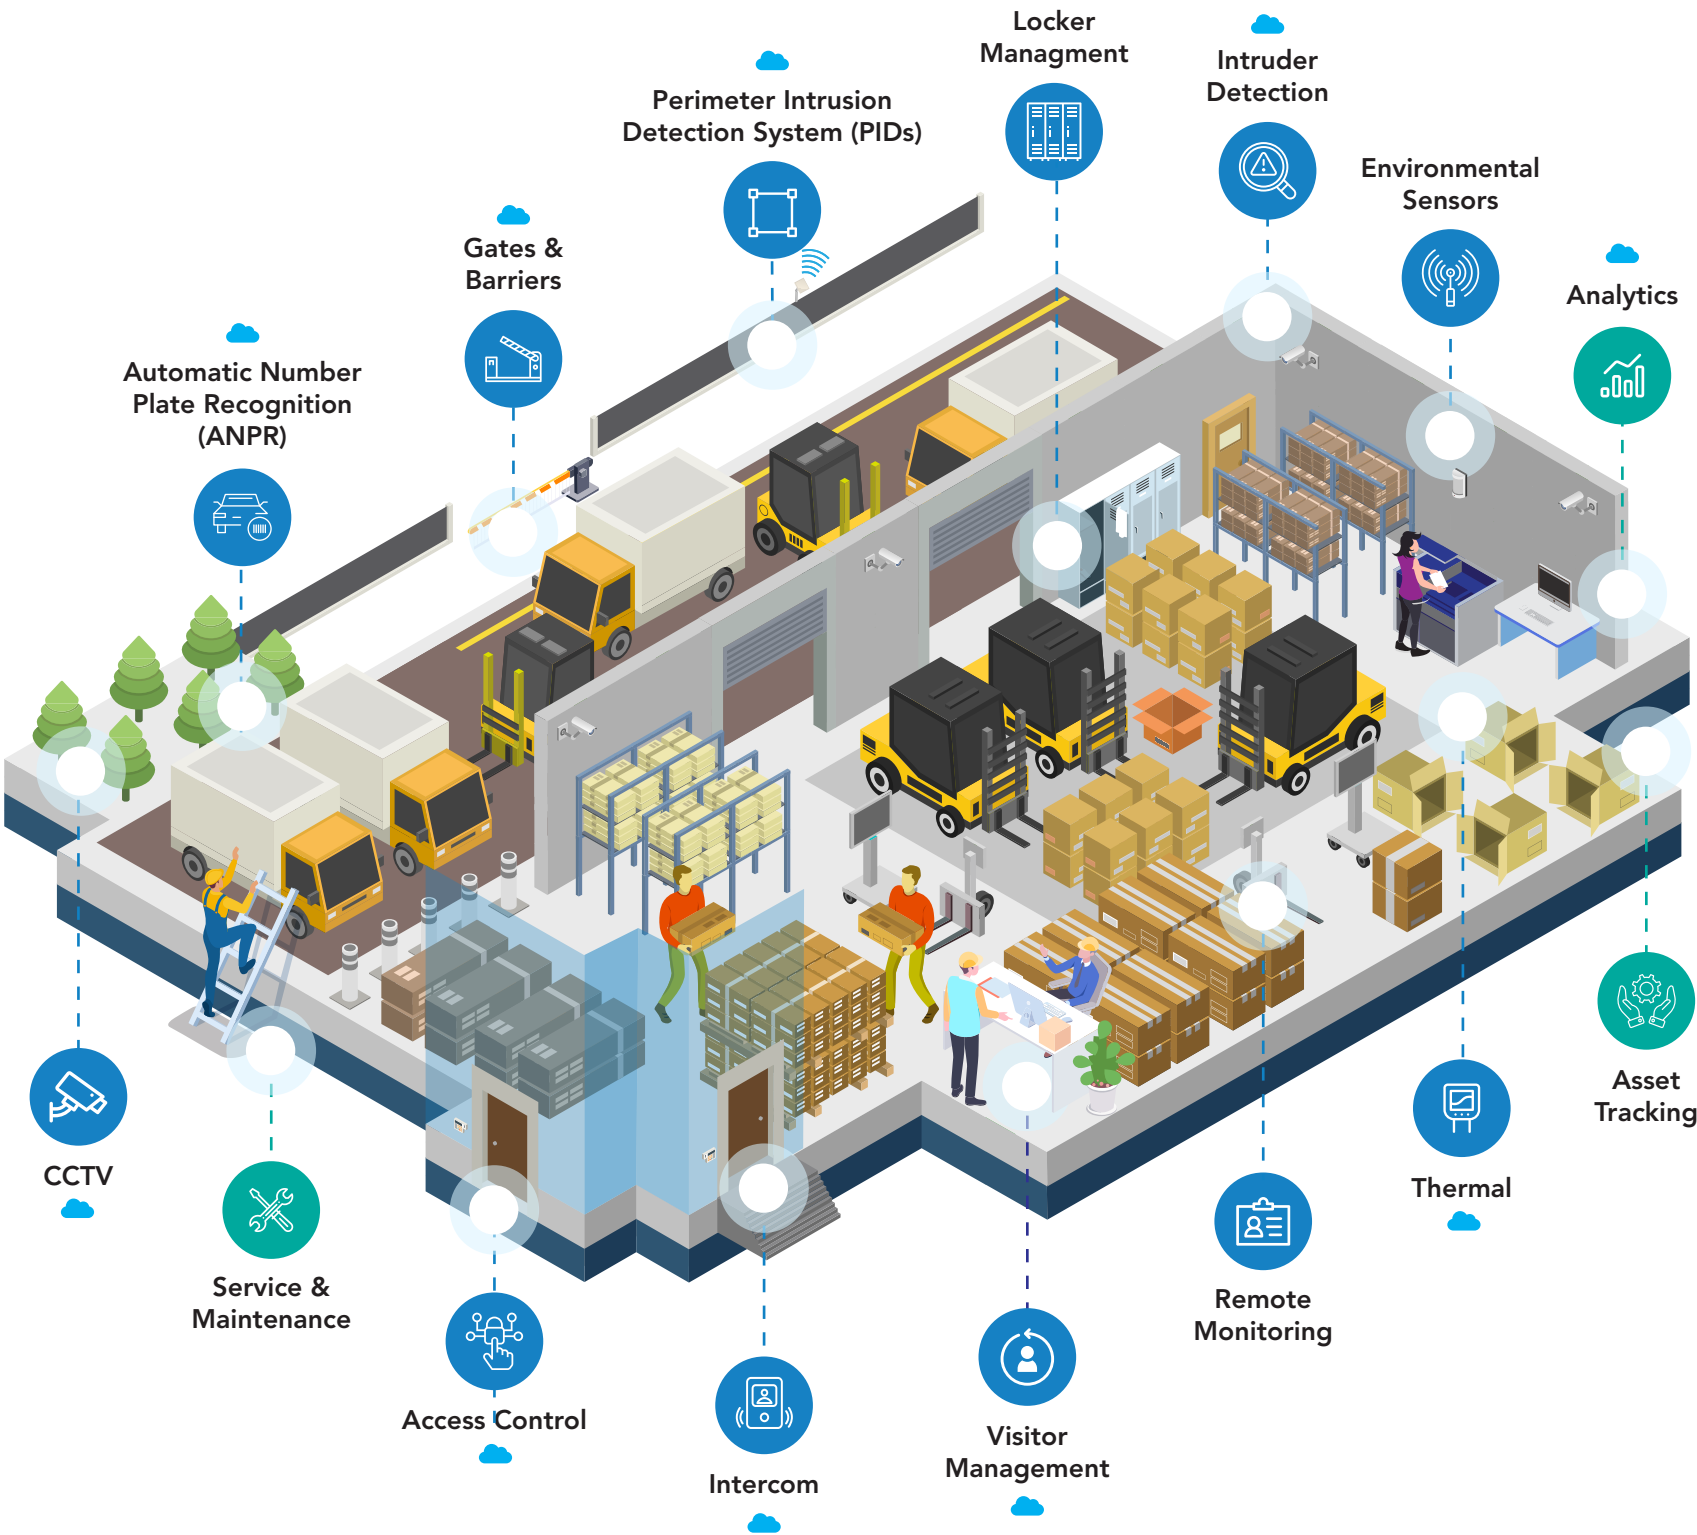

Key Benefits

Unlock operational and financial benefits with cloud security.

- Strong Return on Investment (ROI) through lower costs, reduced maintenance and greater efficiency.
- Reduced Theft and Stock Loss with improved visibility and audit trails.
- Lower Security Costs through remote monitoring and centralised management.
- Scalable Solutions that grow with your business.
- Improved Operational Efficiency across single or multiple sites.
- Enhanced Safety and Security for people, premises and assets.
- Business Continuity and Resilience through secure cloud storage and remote access.
- Faster Incident Response with instant access to footage, alerts and activity history.

Our Solutions

Integrated cloud security solutions designed to protect people, premises and assets across modern warehouse and storage environments.

Alarm Receiving Centre 24/7/365

24/7/365 Help Desk

Cloud CCTV

Monitor your site anytime, from anywhere.

- HD cloud recording
- Remote viewing
- Smart motion alerts
- Incident playback
- Multi-site visibility
- Mobile app access

Smart Access Control

Manage who enters your buildings and when.

- Mobile credentials
- Fobs and cards
- Remote door management
- Deliveries management
- Audit trails
- Visitor access

Self-Storage Security

Protect customers and assets with:

- Unit corridor CCTV
- Entry gate control
- Reception monitoring
- Number plate recognition
- Remote site management

Temporary Warehouse & Industrial Buildings/Hubs

Ideal for operators using structures such as:

- Temporary warehouses
- Storage tents
- Seasonal warehousing
- Construction hubs
- Logistics compounds

Cloud-based security solutions can be quickly implemented and easily expanded to meet evolving site needs.

Our Partners

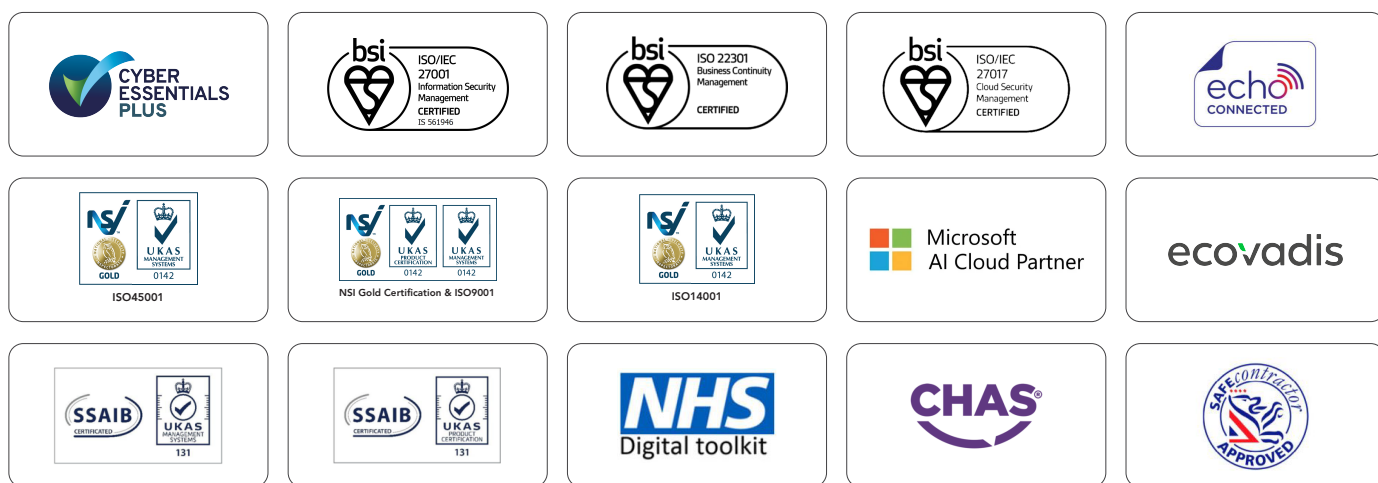

As a vendor-agnostic provider, we work with a carefully selected network of leading cloud security and technology partners. This enables us to recommend and deploy the solutions that best meet our customers' operational and security requirements. Our in-house engineers are fully trained and accredited across our partner technologies, ensuring every solution is expertly delivered and supported.

& more...

Trusted Security, Built on the Highest Standards

Maintaining the highest quality and cyber-security standards, our engineers are DBS checked and hold a minimum of NPPV Level 3 or SC security vetting. Every solution undergoes rigorous testing and validation before deployment, with ongoing patching and updates helping to ensure continued security, resilience and performance.
